

Vol. 33 No. 7

Irma, Alberta, Friday, September 6, 1946

Items From Kinsella District

Mrs. J. Wilkinson, a British barbride and small daughter aequiline arrived here from Agenham England and are at present the guests of Sgt. and Mrs. M. Wilkinson.

Mrs. F. Jack and Elaine visited friends and relatives at Irma last week.

Mr. and Mrs. J. Fallar of Erie, U.S.A. visited Mrs. Fallar's sisters Messrs. Joe and Fred each last week.

Joan and Patricia Witts are holidaying with their grandparents, Mr. and Mrs. R. Stevens.

Visitors from the city during the week-end included Mrs. W. T. Appender, Mrs. J. P. Wangness, Mrs. N. Wangness, Mrs. G. Lee, Mr. F. Long.

Visitors to the city from here over the week-end were Mrs. D. Corbett, Mrs. H. Koos and children, Miss J. Barker and Miss L. Jovene.

Mr. and Mrs. J. Smith and Mrs. P. Smith and daughter Margaret were over from Sedgewick Friday to visit old friends.

Jimmy Jackowich who has spent the summer with his father, returned to the city on Saturday.

Mr. and Mrs. L. Clay and family and Mrs. G. Witts of Calgary are spending a week at Mr. Clay's farm north of town.

Mr. R. Barker spent the week-end at his home here. The United church is now included in the Viking field with Rev. W. Cann as minister. Church service at 11:00 a.m. Sunday school at 10:00 a.m.

Wedding Bells

PAVELY-SAVILLE

A quiet but pretty wedding was solemnized in Wainwright on Monday August 26, when Irene Saville, younger daughter of Mr. and Mrs. J. H. Archibald of Irma became the bride of Mr. Sidney Frank Pavely also of Irma.

The happy couple left for a honeymoon trip to Saskatoon and Melfort, Sask.

Mr. and Mrs. Pavely plan to make their future home at Melfort where Mr. Pavely has accepted a position.

The entire district wish the new couple every success in their new home.

RED CROSS NOTES

Any ladies of Irma and district interested in our Red Cross work will please come to the Legion Hall on the afternoon of Tuesday Sept. 10 at 2:30. Arrangements will be made that afternoon to see what work can be carried on for the year.

LADIES AID

The Irma branch of the Ladies Aid will meet at the home of Mrs. Ross Eaton on the afternoon of Sept. 12. Mrs. Hutchinson will have charge of the devotionals, and Mrs. E. Fenton the topic. Hostesses Mrs. H. L. Black and Mrs. V. Hutchinson. Visitors are always welcome.

VILLAGE OF IRMA

RE 1446 ASSESSMENT

NOTICE is hereby given that a court of revision will be held at Village office, Irma, on Sept. 17, 1946, at 10 o'clock in the forenoon precisely. —A. C. Chapter, Sec. Treas.

Northern Nuggets

Mr. and Mrs. David Smith (nee Edna Jones) having returned from a two week honeymoon at Mountain points, spent the week-end at the home of her parents, Mr. and Mrs. Jack Jones.

Miss Frances Barrs was at her home for the week-end enjoying the long Labor Day holiday.

Mr. Geo. Sherry was a Mannville visitor Sunday.

Mr. and Mrs. Raymond Ramsay and family were Sunday visitors at the home of Mr. and Mrs. Erling Larson.

No one has seen Mr. Freeman Prosser in public lately. Has married life been taking its toll or are the bumps really the Mumps? Hope you're out soon Freeman!

Mr. and Mrs. H. Larson entertained Mr. and Mrs. L. Larson and Mr. and Mrs. C. Ramsay Sun. afternoon.

"The Little Green Ford" has seen a lot of ground lately, as our oil agent, J. Allen, dashes here and yon with gas, oil and grease, and twine.

Misfortune fell to another driver this week. Mr. Robin Johnson escaped serious injuries when he truck in which he was riding, overturned just south of his home. He was returning home for dinner when his dog met him. Trying to avoid injury to the dog, he applied the brakes. This took the truck out of his control, and when it all came to rest, it was on its side in the ditch, heading back to work. Only two small dents show where the fenders hit the ground. Passing neighbors assisted in getting the truck on its wheels again.

Some of the stockers who arrived in Wainwright last week reported that the district. A few report they'll stay till the last straw is threshed.

Mr. Pete Laidler has been setting up the sheaves for his former employer, Mr. W. D. Ramsay. Miss Dorothy Larson spent the week-end at Mr. and Mrs. L. Larson's home.

Miss D. Owen has opened the "College of Knowledge" at Albert with an increase of one over the enrollment last year. Master Hugh Fleming is the only one this year to be initiated into the fraternity.

To the high school in Irma go Miss Iva Currie, Messrs. Don Ramsay, Donald Currie, David Barrs, where they hope again to see what's left they don't know about.

Mrs. Roy W. Hay is receiving medical attention in Edmonton this week.

COMMUNITY COOK BOOK

Tomato Fruit Sauce: (easy on sugar). 30 ripe tomatoes. 6 onions. 6 pears. 1 cup sugar. 1 bunch bunch of celery. 1 quart of elder vinegar. ½ cup mixed pickling spice tied in a bag. 6 peaches. 3 green sweet peppers. 3 red sweet peppers. 2 tsp. salt. Scald and peel tomatoes and remove tough ends, then cut in small pieces. Chop pears, peaches and put onions and peppers through the chopper. Cut celery in match-like pieces or put through food chopper. Mix vegetables and fruit together and add remaining ingredients. Simmer until thick, about two hours, stirring frequently. Seal. Yields about 8 pints. —Mrs. K. Coffin.

Easterly Echoes

Mrs. J. Ballentyne entertained a host of friends at a shower complimenting Miss Margaret Riddle whose marriage to Mr. Harold McMann of Vermilion will take place shortly. After a very pleasant afternoon, the guest of honor was presented with a basket of lovely gifts along with the best wishes of the gathering. Miss Riddle expressed her thanks and all sat down to a delicious lunch. Mrs. Brink and Mrs. E. Haun assisted the hostess. Mrs. Lawrence Savage won the quiz contest.

Miss Jean Enger of Vancouver is visiting her brother, Mr. Edward Enger at the home of their uncle, Mr. Martin Enger.

Born to Mr. and Mrs. George Worthing at the Wainwright hospital, a daughter.

Mr. Einar Enger of Edmonton was a Labor Day visitor at the homes of his brother, Mr. Martin Enger and sister, Mrs. Allen Taylor.

Mr. and Mrs. James Fenton and family were shocked to hear of the car accident in Edmonton on the night of Sept. 2, when a car crashed into that driven by Mr. Fenton's brother-in-law, Mr. John Campbell. Both Mr. and Mrs. Campbell were taken to the Royal Alex. hospital, where their condition was reported as favourable. They have made many friends in Irma during visits here. Mr. Campbell has helped in the choir of the Irma United church on several occasions. Mr. James Fenton and Mr. Stuart Fenton left Tuesday for Edmonton.

Mr. and Mrs. Maguire of Edmonton were week-end visitors at the MacMillan home. Mrs. Macmillan is making for a short time to be with her father while Mrs. Macmillan returned with Robert for a short holiday in the city.

Mrs. Salsberg, (nee Lovette Savard) of Edmonton is visiting her people, Mr. and Mrs. Savard and relatives in the Roseberry district.

Miss Auldred Fitzpatrick of Holyoke is with Mrs. G. Fenton to assist during the harvest season.

With the opening of school, summer visitors to the district have returned to their various homes. The Mills children have returned to Edmonton from the Smallwood farm. The Nyblom girls, who have spent the last two months at the Lindquist home and other relatives, have also gone back to Edmonton. Gerry and Thelma Larson have returned to their home at Fort Sask. after several weeks at the Larson farm.

Miss Betty McKay is home again for the fall months.

Mr. and Mrs. Moe of Mt. Vernon, Washington, were guests last week of Mr. and Mrs. E. R. Erickson.

Week-end visitors to their parental homes were Mr. and Mrs. Art Larson, Mr. and Mrs. Olaf Larson and Arthur. We wish to congratulate Olaf on his new position as inspector of schools.

Mr. E. R. Erickson is the first farmer to begin threshing operations in the district.

Coal Springs school has delayed it's opening because of the illness of the teacher, Miss Genon Theroux.

Ladies Aid will meet at the home of Mrs. Withall on Sept. 12. It is hoped many ladies, even in the midst of a busy season, will be able to take the afternoon off.

Luther League will be held on Sunday evening, Sept. 15.

Camrose Lutheran College students, Elma Erickson, Lilly Nelson, Lawrence and Orville Likness will return for the opening on Sept. 10.

Mr. and Mrs. P. Nelson have now moved into their new home most modern in appearance, and equipped with an electric light plant.

Mr. O. Steffensen is also installing a new light plant.

Farm Safety

Alberta Farm Safety Week for 1946 has passed. It's observance did not signify the end of a short-lived safety campaign. Instead it drew to the attention of thinking people the need for a long term program of safety education for the farmers. If the letters received by the A.I.A.P.A. from farmer organizations can be taken as a sign of their interest, then Alberta Farm Safety Week laid the foundation for such a programme.

The campaign preceding the week was tailored to fit an exceedingly slender budget, but even so, the list of materials that went out to committees and individuals is fairly lengthy. It includes: 1,250 Committee Guides, 2,000 Danger Signals, 450 Stop Carlessness Books, 6,000 Posters, 24,000 Hazard Check Lists, and 3,000 miscellaneous pieces.

To celebrate the first Canadian farm safety week, Robin Hood Mills have produced a beautifully printed brochure titled; "Prevent Accidents, In the Home, at Work or Play." 35,000 of these will be distributed in Alberta in the next few weeks. The book has a foreword by Premier Manning, who recommends it specially to rural families as a text book on farm safety.

We are deeply grateful to Robin Hood Mills for making this book available.

Special recognition and thanks is due to the weekly newspapers of Alberta for the wholehearted way in which they publicized Farm Safety Week. We have already received clippings from 85 papers showing 1,864 column inches devoted to editorial news columns and advertisements supporting the drive for safety. In addition many association and trade papers gave freely of their valuable space.

Every person who helped in any way with this campaign learned something about accident prevention themselves. They became boosters for the safe and sane way of living. Their influence and help was much appreciated during the safety week campaign, and we look forward with pleasure to working with them again during the fall and winter.

RADIOGRAMS

A Whiz at The Keyboard

Fan mail received to date is clear indication that Northern Alberta is really talking about Lloyd Cooper, CICA's staff pianist extraordinary. Though Lloyd is by no means new to Western Canada audiences, CICA is "pleased as punch" to have acquired his services on a definite basis. During the war years, while posted at various training centres with the R.A.F., Lloyd played recitals over CJOE Lethbridge, CFAC Calgary, CKCK and CKRM, Regina and CICA Edmonton.

Before joining the R.A.F. he was a prominent pianist in England, being a regular contributor to the Reading School recitals and playing regularly with such world famous orchestras as Joe Loss, Debroy Summers and Jack Hilton.

It is interesting to note that Alec Templeton was also a pianist with the Jack Hilton orchestra.

One of his first major achievements was the acceptance of his composition as the theme waltz for the film "The First Mrs. Fraser."

In spite of his youth, he is 33. CICA's nimble fingered pianist crammed 18 months of regular piano playing on International Broadcasting Company programs overseas.

Major reason for Lloyd's decision to make Edmonton his home, is his "blind date" of three years ago, charming Alice Bourbonnais, who is now Mrs. Lloyd Cooper.

Lloyd is heard over CICA twice daily Monday through Friday, and the listeners are clamoring for more.

"There is no getting away from it. Labor unrest is having a tremendous effect on our work programme throughout the country." —Mayor Stanley Lewis.

CANADA'S GRAIN HANDLING COSTS ARE WORLD LOWEST

Line Elevators Hold 42 Annual Meeting.

Grain handling and storage charges in Canada are the lowest of any country in the world, shresholders were informed at the 22nd annual meeting of the North-West Line Elevators Association, held Tuesday afternoon in the Grain Exchange Building. The Association is comprised of owners of 3,400 country and terminal elevators operating in Western Canada with a combined storage capacity of 274,000,000 bushels. The organization was formed in 1898 with the object of reducing the expense of handling Western Canada's grain crops to a minimum.

At a meeting of directors following the annual meeting, J. G. Fraser, vice-president and general manager; James Seaton, assistant secretary; Dr. F. J. Greeney, director Line Elevators Farm Service; Directors elected were: G. F. Copeland, Assistant Manager; Reliance Grain Co. Ltd.; W. J. Dowler Secretary-Treasurer; Parrish and Heimbecker Ltd.; R. Emerson, Vice-President; General Manager, National Grain Co. Ltd.; J. G. Fraser, The North-West Line Elevators Association; J. M. Gilchrist, Vice-President; Searle Grain Co. Ltd.; W. A. Hastings, Manager, Lake of the Woods Milling Co. Ltd.; C. E. Hayles, President, Canadian Consolidated Grain Co. Ltd.; C. C. Head, General Manager, N. M. Paterson and Co. Ltd.; Charles Kroft, Vice-President, McCabe Grain Co. Ltd.; Cecil Lamont, The North-West Line Elevators Association; S. D. McEachern, Winnipeg Manager, Federal Grain Ltd.; Wm. McGraw, President, Pioneer Grain Co. Ltd.; A. C. Reid, President, Western Grain Co. Ltd.; V. W. Tryon, Vice-President, Federal Grain Ltd.

"We seem to lack courage in providing proper remuneration for the people in public service. We seem to be afraid that we will be open to criticism."—Senator J. Bench.

"Not only have they, strikers, paralyzed industries directly affected but industries not directly connected with any labour dispute. There is scarcely a section of this country which is not beginning to be affected by these strikers."—Rt. Hon. C. D. Howe.

THE PICK OF PIPE TOBACCOS

Sixty Years Of Progress

THIS YEAR MARKS THE SIXTIETH ANNIVERSARY of the founding of the Experimental Farm system in Canada, and in observation of this milestone tributes have come from all parts of the country to the work which has been carried on in the interests of agriculture for over half a century. When the system was inaugurated in 1886, the position of Canadian agriculture was far from prosperous. The great wheat-growing areas of the West had not yet been developed, sixty thousand acres in the Red River Valley being the only wheat crop grown in the West at that time. In the whole of Canada only 45 million acres were then under cultivation, as compared with 174 million acres today. Exports of wheat in 1886 amounted to 3,500,000 bushels, nearly all of that being from Ontario, while we now export nearly 300,000,000 bushels, mostly from the Prairie Provinces.

Brilliant Work Of Dr. Saunders

The founding of the Experimental Farm system in Canada inevitably brings to mind the work of the noted scientist, Dr. William Saunders, who was the first superintendent. Dr. plant breeding, which led to the discovery of Marquis and other varieties of wheat suitable for the climate of Western Canada, is well known. As a direct result of his studies the Canadian wheat became one of the great wheat-producing areas of the world, and Canadian agriculture as a whole advanced rapidly. Dr. Saunders' work was not concerned entirely with wheat, but extended to problems connected with the growing of trees, shrubs, fruits and vegetables in regions where the climate was not considered favourable for their cultivation. He had much success in introducing varieties of plants which could be successfully grown on the Prairies and in northern regions.

Tradition Has Been Upheld

The tradition established by Dr. Saunders has been carried on, and the Dominion Experimental Farms continue to make a valuable contribution to the progress of agriculture in all parts of the country. The importance of scientific knowledge in dealing with farm problems has been proven many times, and the Experimental farms help to keep before the farmer the most up-to-date knowledge on methods of dealing with plant and animal diseases, new breeds of plants, the latest developments in agricultural engineering, and countless other matters related to farm work. Plans are now under way to further expand the work of the Experimental Farms throughout the Prairie Provinces, in connection with soil drilling, the use of new varieties of crops and the use of the various experimental stations. Indeed, been of great value both to agriculture and to the country as a whole, for, in the words of Dr. E. S. Archibald, superintendent of the Dominion Experimental Farms: "Without a prosperous agriculture, there can be no prosperous urban community."

WATER FOR CATTLE

Average Cow Needs Ten To Fifteen Gallons Of Water Per Day

Veterinary authorities state that for the highest production of milk the importance of a continuous supply of drinking water for the cows cannot be over-estimated. Experiments in Canada, United States, Britain and other countries have shown that milk production was higher from cattle with water available to them throughout the day than from cattle which had access to water only once or twice a day.

It is estimated that the average cow needs from 10 to 15 gallons of water per day. High producing cattle, such as those producing, say, 10 gallons of milk per day, may consume up to 30 gallons of water per day. Where dry feed, such as hay or chaff and concentrates, is being fed, the cows would take 10 to 15 gallons of water as such. However, where the cows are on pasture and quantities up to 120 pounds are known to be eaten, water would be taken in smaller amounts. One hundred and thirty pounds of pasture would probably contain about nine or ten gallons of water. If silage were fed, 50 pounds of that material would probably contain about 3½ gallons of water.

HOME FROM GERMANY — A

"few weeks' visit" that stretched into seven years is the experience of Mrs. Ernie Juergens of Kitchener, Ont. In 1939 Mrs. Juergens went to Germany to attend her daughter's funeral. Outbreak of war caught her in Hamburg, and she spent the entire war there. Houses around her were bombed out of existence and her own house hit. Glad to be home again after the privations of wartime Europe, Mrs. Juergens says happily: "Canada seems too good to be true. The Canadian soldiers have proved the most popular occupation troops in Germany."

More Population

Is Needed By Canada To Develop The Country

Increased immigration is necessary because it is obvious that 12,000,000 people cannot continue indefinitely to own, develop and defend a country as large and as rich as Canada.

Increased immigration means also that the domestic market is enlarged and that is important in view of the post-war improvements being made industrially and agriculturally in other countries.

The 4,000 Polish farm workers now being admitted will be the first coming of a long-term movement needed to provide the population Canada must have to derive the full benefits from her size, position and natural wealth.

Price Control And Rationing Information

Q.—What are the numbers of the meat and butter coupons in ration book No. 5 to be declared invalid on August 31st?

A.—Meat coupons M-40 to M-50 and butter coupons R-10 to R-17 become invalid for the purchase of these commodities after August 31st. "Beaver" and "Buffalo" coupons, issued to members of the armed forces and other temporary ration card holders, will not be affected by the change and all sugar coupons will remain valid until further notice.

Q.—I heard the sugar ration was to be increased for the balance of this year. By how much is the sugar ration to be increased?

A.—There will be an increase of three pounds per person in the individual sugar ration for the remainder of this year. The increase to consumers will boost the individual ration to 31 pounds of sugar for the year. The 10 pounds of canning sugar is in addition to this and makes a total allotment of 41 pounds per person.

Q.—I am a farmer's wife and make butter for our own use only. Is it necessary to make a report to the Local Ration Board on the amount of butter used?

A.—All dairy butter producers (other than authorized butter reporters) must register with their respective Local Ration Boards even if the butter they produce is used in their own households and is not sold.

Q.—What coupons will be used for the purchase of meat when the "M" coupons in ration book No. 5 are all used?

A.—The spare "Q" coupons in book five will be declared valid for the purchase of meat after August 22nd. These "Q" coupons will be used until the coupons in ration book No. 6 become valid on September 19th.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your selling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Under French law 14th century butchers could deal in one type of meat only and could sell it only under natural light. Sales by candle light or lamp were taboo.

Foreign Trawlers

Are Operating In Fishing Areas Off The Atlantic Coast

HALIFAX. — The proposal that fishing in Atlantic waters off the East Coast be regulated by an international body came from Capt. Ben Mackenzie, president of the Canadian Fishermen's Union, here.

Capt. Mackenzie said his union will ask Atlantic Fishermen's Union headquarters in Boston to co-operate in an effort to have an international body appointed to regulate fishing off the Nova Scotia and Newfoundland coasts.

The union chief commented on a Boston dispatch which said the French Government was planning construction of 32 new trawlers to operate on the Banks. He said this would make "the now-crowded Banks more crowded."

Capt. Mackenzie said his union was collecting depositions for the Federal Fisheries Department from fishing vessel masters and crews on operation of foreign trawlers in fishing areas off Nova Scotia. Some fishermen recently complained they were being forced to abandon the rich Quereba because of damage to their gear by foreign vessels.

"There must be some regulations, on a national or international basis," he said, "to govern the catch if our fish supplies are not to be seriously depleted and our fishing industry wrecked."

Aviation Advances

Canada Is Keeping Pace With The Rapid Development

The efficiency with which Canada carried out her wartime production job had indicated the developments in specialized fields which might be expected from the new skills learned by her engineers and workmen.

The "North Star," the 40-passenger transport capable of flying 3,500 miles non-stop with a maximum cruising speed of 325 miles an hour and an altitude limit of 28,000 feet, may be taken as a sample of things to come.

To the accepted abilities of Canadians to operate in the air have been added the demonstrated capabilities of the Dominion's production forces to make the up-to-date planes in which they will fly. It is encouraging to see such evidence of this country's determination to keep pace with the rapid advances of the air age, both in building aircraft and in flying them.—Victoria Times.

GIVEN FINAL READING

OTTAWA. — The commons gave third and final reading to a bill amending the criminal code to change the method of selecting juries in Saskatchewan and Alberta. The bill will permit Saskatchewan to return to the practice of a 12-man jury and permit Alberta to retain six-man juries with an improved system of challenges.

Coming Of Age

Princess Elizabeth Will Celebrate 21st Birthday In Cape Town

Buenos Aires announced that the King has approved plans for Princess Elizabeth to celebrate her 21st birthday at Government House in Cape Town when the heiress presumptive to the British throne comes of age next April 21.

The princess, with her sister Margaret, is to accompany the King and Queen to South Africa on a royal tour starting February 17. The birthday celebration will take place shortly before the royal family returns to Britain.

GEMS OF THOUGHT

BUILDING

Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself.—Abraham Lincoln.

We build our ideals and they in turn build us.—Le Conte.

Happy is he the palace of whose affection is founded upon virtue, walled with riches, glazed with beauty, and roofed with honour.—Francis Quarles.

What we do upon some great occasion will probably depend on what we already are; and what we are will be the result of previous years of self-discipline.—H. P. Liddon.

We should strive to reach the Horeb height where God is revealed; and the corner-stone of all spiritual building is purity.—Mary Baker Eddy.

Let us labor for the larger comprehension of truth, and that more thorough repudiation of error, which shall make the history of mankind a series of ascending developments.—Horace Mann.

Medical Courses

Many Young People In B.C. Would Study Medicine

There are at present about 125 young people in British Columbia ready and eager to enter upon medical courses. If a medical faculty is not started at Point Grey within a reasonable period, most of these young people—many of them returned servicemen—will be denied the privilege of studying medicine.

They cannot be accommodated in other colleges because there is no room for them there.

We have depended for too long upon the schools on the prairies and in the East and in the United States to educate our doctors. Now we are thrown upon our own resources.

Outcome Of War

British Athletes Are Trained By Germany

Strange outcome of the war in this topsy-turvy age of atomic energy may be the winning of Olympic medals by British athletes trained in Berlin by German coaches and physical culture experts.

Within the magnificence of Berlin's Olympic Stadium, British Occupation troops are running, jumping and hurling weights daily in an effort to keep fit and to cheat monotony.

They have not only the finest track in the world on which to perform, but Germany's greatest coaches and doctors of physical culture have been employed. And whatever your opinion of Germans it is a fact that nowhere can be found more efficient or more skilful athletic coaches.—London Express.

Circus Folk

Elephants Are Used For Plowing In Britain

LONDON.—The war was no respecter of persons—even circus folk. Reconstituting its staff for its first season since 1940, the big Bertram Mills circus found that many of its clowns and performers were in war factories or driving trucks; its trained horses were driving farm vehicles and—crowning blow—its elephants were being used for plowing. The circus was given enough priorities for an austere season.

INVISIBLE IN ACTION

Although eight inches long, the chameleon's tongue is invisible to the naked eye when in action. It strikes with unerring aim and whisks the hapless insect into the owner's mouth with lightning-like rapidity.

YOUR BREAD CAN'T BE BEATEN!

ROYAL YEAST CAKES

ROYAL YEAST CAN'T BE BEATEN!

Makes Bread that's rich, delicious, light-textured, tasty, more digestible! ALWAYS FULL STRENGTH, ALWAYS DEPENDABLE

CAN WE PREVENT FAMINE?

That is the heading of an article by Sir Arthur Salter in an issue of "Picture Post" London, England, just sent to us—dated May 1946.

An authority (Sir Arthur Salter was deputy-director of U.N.R.R.A. 1943-44) he goes on to point out that real famine which may bring starvation to millions now faces a large part of Europe, India and the Far East.

A summary of the chart accompanying the article, gives the food intake of the various peoples at that date. Figures show average daily consumption in calories 1,500 means severe shortage, 1,000 means slow starvation.

U.S.A.	3000-3400
South America	3000
Denmark	2850-2900
Sweden	2850-2900
Switzerland	2850-2900
Australia	2900
United Kingdom	2850
New Zealand	2800
Turkey	2500
Norway	2300-2500
Holland	2300-2500
Belgium	2300-2500
France	2300-2500
Finland	Less than 1900
Hungary	Under 1900
Spain	Under 1900
Rumania	Under 1900
Portugal	Under 1900
Hungary	Under 1900
Italy	Under 1500
Bulgaria	Under 1500
Czechoslovakia	Under 1500
Albania	Under 1500
Austria	1130-1440
Greece	900-1750
Yugoslavia	770-1900
India	1200
China	1200
Japan	1600
Russia	Not known
Germany, U.S. zone	1650
French zone	1130-1440
British zone	1045

As those above figures were quoted (in May 1946) there was great hope that crops in the U.S.A., Canada, etc., could be supplied to the hungry, but great difficulties are being experienced from many angles, not the least of which are upset conditions and paralyzed communications in the countries which need the most help.

Even England is rationing bread and cereal grains now. The monsoon rains failed in the East, and no monsoon means no rice which is the food of millions.

"Can we prevent famine?" is the food of millions. "Can we prevent famine?" is the food of millions. "Can we prevent famine?" is the food of millions.

NEW HOCKEY LEAGUE
CALGARY.—The Kootenay Hockey League is no more, but a new circuit called the Western International Hockey League, will be formed with five teams, Trail, Nelson, Kimberley, Spokane and Los Angeles. This announcement was made by Fred Holger, manager of the Los Angeles Ramblers, who was in town looking for hockey players. Mr. Holger said the new league opens Oct. 26.

MADE BY BURGESS

NIAGARA FALLS, CANADA

OUR COMPLETE SHORT STORY— GUARDIAN OF THE LAW

By GEORGE C. CHERNISH
Copyright Wheeler Newspaper Syndicate

THE commissioner said wearily, "Look, Steve, we've got to have action—understand? The crime wave is growing worse by the hour. I know you're busy, but that won't cut ice with the mayor. He's demanded results. Now it's our move."

Police Captain Steve Brant leaned back in his swivel chair. Piles of newspaper clippings and photos of wanted men littered his desk. A detailed map of the city was spread out before him.

"These hold-ups are all the same," continued the commissioner, "and pulled by the same two thugs. How they have the nerve to stick around here so long, is beyond me."

"We'll get them," Steve's voice was resolute. "These things take time, you know."

Commissioner Drury stiffened. "I agree. But you're taking too long. Far too long."

"It can't be helped. We're not miracle-men."

"I don't care what you are. You better do something quick or make room for someone who can."

Steve's retort died on his lips as the commissioner spun on his heel and left. Steve made a mental summary of the case as it stood to date.

About a month ago, the two men believed responsible for most, if not all, of the current hold-ups, had pulled their first job. Termed the "Black Hoods" by the local press, because of their disguise, the sinister pair had embroiled the entire city.

Steve, as the phone rang, an irate voice said: "This is B. J. Turner, over at the East End Garage."

"What's your trouble?" Steve asked.

"That cop's nuts. He takes a notion to pick on me about every other day. I'm getting fed up, captain."

"The awning in front of my store is a half inch lower than the by-law allows. . . . He wants to give me a summons."

Steve suppressed a chuckle. "Don't let him worry you, Turner. I'll have him smarten up."

"You'd better, abruptly," or I'm seeing the maximum."

Two minutes later, Dr. Kittering, the county coroner, barged in. His sharp features were flushed. He shook a stubby forefinger at Steve.

"The coroner you hired is absolutely stupid!" he thundered. "Can't you do better than that?"

The coroner rushed on: "I had to go through a red light on an emergency call, and the young fool trailed me and gave me a ticket! I explained the situation to him, but it didn't mean a thing."

Steve shook his head. "I'll look it up," he promised. "We've handed these days, and a lot of fellows we take on aren't grade A by any means."

"Technically—yes," Steve told him. "In the light of everyday common sense—no!"

Steve dismissed the rookie, shook his head dolefully and called it a day. "A week later Commissioner Drury strode into Steve's office. "The hold-up last night. The Black Hoods again."

Steve remained silent. "I've just come in from the mayor's office," Drury went on. "He gives you a week to pick them up. He paused a moment. "And that Stark kid. Fire him now. He's just a nuisance."

"He's Dan Stark's boy," Steve shook his head sadly. Dan Stark had been his best friend. And before he cashed in, with a gangster before him in his chest, Steve had promised to see that his kid got a break.

As the commissioner left, Steve made up his mind. Let them do their own dirty work. Good cops weren't made overnight. They all had to learn.

He ran for a prowler car brought from the garage. This might be his last day; his last chance to view the city from the seat of a police cruiser.

Drury was ruthless. More than one cop had learned that to his regret. As he prepared to leave the phone rang. The desk sergeant was on the line, bubbling over with excitement.

"The Black Hoods—young Stark caught 'em! He needed help but he gets the credit—later find their weapons, hoods and all!"

"A marvelous piece of work," the commissioner was saying. "Who tipped you off, Stark?"

The rookie shook his head. "Nobody, sir," proudly. "I arrested them under Section five, Sub-section two of the city by-law."

"Thunderation!" Steve gasped. "Section five?"

The commissioner looked puzzled. "What's that cover?"

"Spittin' on the sidewalk," the rookie said.

Wheat Is Important

But Oats, Barley And Rye Excel It In Gross Value

New rust varieties now being introduced are destined to make oat growing in Canada a safer and more profitable occupation and thus place the crop as such on a still higher level among Canada's great natural assets, said Dr. L. H. Newman, Dominion Cerealist, in discussing Cereal Grains, in the Agricultural Institute Review.

While wheat remained the most important single grain by reason of its almost universal use as human food, oats and barley, and to a lesser extent rye held first place as a group from the standpoint of animal nutrition.

In gross value they actually excelled wheat to a slight degree, Dr. Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

In feeding value for live stock, oats held a very high place. They ranked first in popularity as a horse feed and as high as a food for cattle. They actually constituted the basis of most of the grain feeds used in Canada and might be regarded as the most important feed grain.

As human food, oats, chiefly in the form of porridge, have always enjoyed wide popularity as a nourishing and palatable food. Ranking high in vitamin B, they were in position to make substantial contribution to the daily intake of this important vitamin.

According to the latest feeding returns available, oats and rolled oats had a valuation of \$3,743,738.

New Heating System

English Electrical Devised Method Of Using Water From River

A city engineer in North, England, has devised a method of using cold water from the river for heating. He has developed a heat-pump, employing the principle that compression produces heat, and has succeeded in maintaining a temperature of nearly 65 deg. F. in a five-story building. It is reported that this compression-heating costs about one-third as much as orthodox methods.

Blended for Quality "SALARA" TEA

"We were rushing to the grocer's before closing time . . . Imagine a week-end without delicious Grape-Nuts Flakes!"

"I can't imagine it brother! Step on it and I'll provide a police escort down to the store so you'll be sure of getting your mally-rich, sweet-as-a-suit, Post's Grape-Nuts Flakes!"

"OK—here we go! Bring on that Grape-Nuts Flakes' good nourishment: carbohydrates for energy, proteins for muscle, phosphorus for teeth and bones, iron for the blood, and other food essentials."

"They're good all right! That's because they're made of two grains—wheat and malted barley. And specially blended, baked and toasted for golden-brown delicious crispness and easy digestion."

"I think I'll get a couple of those giant economy packages."

Not Interested

Falconbridge Nickel Mines Not Boasting With Low Grade Deposit

KOBORO.—Falconbridge, Nickel Mines Limited said it has no interest in a low-grade nickel deposit reported to have been found near Dar Es-Salaam, Tanganyika, and that it is not sending a representative to the area to examine the find.

The official of Falconbridge, which operates a mine in the Sudbury district in northern Ontario, said that C. H. Farnham, mentioned in a Dar Es-Salaam dispatch as the representative of the company who would examine the property, is a consultant who has at times acted for Falconbridge. However, he is at present in the United States and as far as the company knows is not going to South Africa.

LIFE can Begin AFTER 40, IF.

Around 40 our energy leaves. But, experience has taught us to do our work with less effort. The years should yield the greatest accomplishments, the most enjoyment and happiness. They can, too, if we avoid the kidney and bladder disorders such as Backache, Headache, Bladder Pains, Loss of Sleep and Energy which so often attack these around 40. For over half a century Dr. J. C. Farnham's Pills have been helping men and women to keep kidneys and bladder in good order. If you are nearing 40, or past it, the sake of your health and a happier future use Dr. J. C. Farnham's Pills today!

Welcomed All Comers

Thomas Hardy, Famous English Novelist, Was Fond Of Cats

The great English novelist Thomas Hardy, was very fond of cats. Once when two friends from America arrived for tea they found the novelist almost covered with cats. Three or four were on various parts of his person, other cats were near at hand and saucers of milk were noticed at different parts of the shrubbery.

"Are all these your cats?" Mr. Hardy was asked, and he replied genially, "Oh dear no. Some of them are, and some are cats who come regularly to have tea, and some are still other cats not invited by us, but who seemed to find out about this time of day tea is being served, so we have the pleasure of their company too."

Real Old-Timer

British Ship Built In 1815 To Be Broken Up

Almost the last of Britain's "wooden walls"—the old ship Cornwall—is to be broken up at Gravesend on the River Thames and its timbers used for furniture. Built in Bombay in 1815, the Cornwall was launched as a 74-gun ship. In recent years it has been moored and used as a training ship for boys.

The ship last saw action when a bomb fell near it in 1940, ripping a hole in its hull. The German radio announced that raiders had "severely damaged a British warship," Christian Science Monitor.

MACDONALD'S

Canada's Standard Smoke

World of Wheat

By H. G. L. Strange

A SOURCE OF GOOD CHEAP SEED

Thousands of farmers this last spring sent samples of their seed wheat which they sowed in 1946, and which, therefore, represents their crops being harvested, to be tested for trueness-to-variety by the "Crop Testing Plan." In almost every district there will be found one or more farmers whose samples were found on test to be equal in trueness-to-variety to Certified, sometimes to Registered seed. These farmers will soon be notified of the classification of their crops. Those, therefore, who have doubts about the trueness-to-variety of their present crops, or who may wish to change over to an entirely new variety, and who need, therefore, to purchase a large quantity of true-to-variety seed for this next year, might well enquire if some farmer in their neighborhood has "Crop Testing Plan" "A" stocks. If so, they could certainly purchase a quantity of such good seed at a small premium over the elevator price.

In addition to purchasing a quantity of such "Crop Testing Plan" "A" seed, farmers would be wise to sow also five to ten acres of clean summerfallow to Registered and Certified seed sealed in the sack. This would be a fine money-making investment, for it would provide a good deal of excellent seed at low cost for the following year.

T.B. QUESTIONS and ANSWERS

Q. What effects have aspirin tablets upon the body when taken for the purpose of reducing temperature?

A. Aspirin is a general muscle and nerve depressant. It also relieves pain and, if not taken to excess will have no apparent ill effect on the body except perhaps the causation of hyperacidity in the stomach. If the temperature is elevated, aspirin will usually lower it; but if not elevated before taking aspirin, no effect may be noticed.

Q. I am very much interested in the gold cure. Can you tell me something about it?

A. The treatment of T.B. by means of sanocrysin or other gold salts has been carried on in various countries. Some say it is a very valuable procedure in certain types of cases; others do not have faith in it. It has not been used much in this country.

NOTICE TO CREDITORS AND CLAIMANTS

In the matter of the Estate of P. J. HARVEY, late of the district of Irma, in the province of Alberta, deceased.

NOTICE is hereby given that all persons having claims upon the estate of P. J. Harvey, who died on or about the 28th day of April, 1946, are required to file with the undersigned by the 15th day of October, 1946, a full statement duly verified of their claims and of any securities held by them and that after that date, the Administrator will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Roy Jackson, solicitor for the Administrator, Empire Building, Edmonton Alberta,

C. L. Holt, Administrator, Irma, Alberta.

6-13c

WHEN THE FROST IS ON TOMATOES

Green tomatoes, even if caught by the first light frost, can be used, says Mrs. V. Macdonald, Supervisor of the Home Economics Division. "Mature Greens"—those about to turn colour and often with a white spot around the blossom end—will ripen at cool temperatures, 55 to 70 degrees F., in either sunlight or shade. Spread them out in the attic, cellar or porch if not too cool. Or, line them up on windowsills if the room is not too warm. Immature green tomatoes won't ripen and are likely to rot if kept too long. It is best to pickle or cook these soon after picking.

While not as rich in Vitamin C as ripe tomatoes, green tomatoes are still considered a valuable source of Vitamin C.

Here are some ways to use green tomatoes:

1. Fry or broil by cutting in half-inch slices, dip in beaten egg, then flour then flour or bread crumbs and cook until tender and brown. Sprinkle with grated cheese if desired.
2. Quarter and add with other vegetables to meat stew.
3. Fluff with buttered crumbs, top with cheese and bake; or scallop alternating layers sliced tomato and bread crumbs and top with grated cheese, then bake in oven.
4. Green tomato marmalade made with lemons.

5. And here's a favourite—Green tomato mincemeat that's really the real thing. It is sealed in jars and used later for mincemeat cookies, fruit cake and what have you!

For recipes using green tomatoes write to the Home Economics Service, Department of Agriculture, Parliament Buildings, Edmonton.

CARD OF THANKS

I wish to take this opportunity to thank my many friends for their concern during my stay in the hospital. I wish to thank the following especially for their kind letters, cards and gifts of fruit:

Mrs. I. C. Knudson, Miss Nancy Shaka, Mr. and Mrs. R. Smith, The Pond Family, and the LOBA. Mrs. R. Herbert.

A.F.U. NOTES

The next AFU meeting will be held in the high school on Tuesday evening, Sept. 10 at 8:30. Important business on Strike Action to look after so a good attendance is necessary. The members who didn't vote on Strike Action will be given a chance at vote at this meeting.

"World War Three would be fought in Canada."—Maj. Gen. G. R. Pearkes, V.C., M.P.

LOCALS

Mrs. C. R. Thompson and daughter Lieut. M. A. Thompson Abernethy, left for Boston after spending two months with Mrs. Smallwood and Mrs. Tripp.

The regular Infant and Pre-School clinic will be held in Hedley's hall, Friday, Sept. 13 at 10 a.m.-5 p.m.

Mrs. E. W. Mills and Bobby, accompanied by Erna and Audrey who spent their holiday at the Smallwood farm, returned to Edmonton last week-end.

The village schools opened on Tuesday, Sept. 3 with the same staff as of last year.

High School—Mr. I. Reeds and Mr. D. Gunn.

Public School—Mr. H. Elford, Mrs. G. Holt and Miss V. Simmermon.

The attendance is as follows: High School grade X—19 pupils grade XI—14 pupils, grade XII—8 pupils.

Public School, senior room—26 pupils, Elementary room—32 pupils, Primary room—22 pupils.

Mr. Jack Peterson is on the sick list this week.

Mrs. Cilland and daughter Audrey have returned from a trip to Banff and Seba beach. While at Seba they visited with our old friends Mr. and Mrs. Axel Peterson.

Mr. and Mrs. Floyd Fuder and family, and Mr. Ney Fuder have just come home from an extended visit in the States.

The Rev. H. W. Inglis spent two or three days in the city last week attending the rehabilitation conference.

The Irma branch of the LOBA is the proud possessor of a handsome shield which it has, for two consecutive years, won. This shield was presented by the Provincial Grand Lodge of Alberta for the lodge sending in the largest donation, on a membership percentage basis, to the Alberta Protestant Orphan's Home. The shield is on display in the window of the Irma Co-Op store. Any donations to the Alberta Protestant Home may be left with Mrs. I. C. Knudson.

Congratulations go to Mr. and Mrs. E. C. Thurston who are the proud parents of a baby daughter born at Wainwright hospital on Thursday, August 26.

Mr. and Mrs. Melvin Peterson and family came down from Edmonton and spent last week with friends and relatives in Irma and district.

Mr. and Mrs. Jack Fletcher and son Jackie are back in Irma again after a long holiday which included stopovers in Vancouver, Seattle and Portland.

Don't forget Board of Trade meeting Tues. Sept. 10th.

Malcolm Frickleton has just returned from a holiday on the farm with Arnold Enger.

Miss Martha Berg of St. Paul is a guest at the home of her sister, Mrs. J. Fletcher.

Mrs. Edith Elliott who has been taking medical treatment in the city, returned home feeling much improved in health.

Mr. and Mrs. Ross Eaton spent last week-end in Edmonton.

Mr. and Mrs. Lowerence and children of Edmonton were week-end guests at the home of Mr. and Mrs. H. L. Black of Irma.

Mrs. Gerald Currie and daughter Helen of Edmonton, are visiting with Mrs. Currie's other daughter, Mrs. Les Robertson of Irma.

Mr. and Mrs. Art Peterson of Edmonton were visiting friends and relatives in Irma last week.

Mrs. Geo. Fischer has had to be in Edmonton a lot this summer owing to the illness of her father, Mr. Dutton.

Now that so many of our friends are back from holidays and the school bells are all ringing merrily once more, Irma doesn't look so much like "The Deserted Village" when so many were absent and for so long; there were times when we wondered if the gophers and coyotes were going to take the townsite back. But the Garrison is at full strength once more and we can hold our own for at least another year.

"After all, the only way in which one can make an effective protest in Parliament no matter if he may agree with some portions of a report, is, when the time comes, to register that protest by way of his vote in the House."—M. J. Coldwell, M.P.

RATION BOOK 6

Issued between September 9th and 16th

Distributing Centres will not be open on all days during this period. So—MAKE SURE that you know exactly what days and hours the Distributing Centre you intend to go to will be open. See list of Distributing Centres below.

RATION BOOKS WILL NOT BE MAILED OR DELIVERED—THEY MUST BE CALLED FOR

Then Take Your Ration Book 5 with the Application Card RB-191 Still Attached, Properly Completed and Signed, to a Distributing Centre and Ration Book 6 Will Be Given You.

ADULTS MUST APPLY FOR CHILDREN

Children under 16 may not apply for their Ration Books or those of others.

APPLYING FOR OTHERS

Any responsible person over 16 may apply for Ration Books for other members of their family or neighbours, providing above requirements are complied with.

ARMED FORCES

Members of the Armed Forces will continue to obtain their Ration Cards from their own units.

THE WARTIME PRICES AND TRADE BOARD

Who Speaks For You, Mr. Farmer?

The Northwest Line Elevator Association (according to their own brief) "have taken all means available to them" and have made "six years of unremitting effort" to get the Pools taxed, and have continually criticized the Pools and the Federal government but the example set by the Pools have been of benefit to growers delivering to other elevators.

LINE ELEVATOR ASSERTIONS

The line elevators' statement:

"On November 25, 1941, the United Grain Growers Limited, faced with the necessity of meeting the policy of competition thus initiated by the Pools, in turn declared a patronage dividend of \$200,000.00.

More farmers apparently benefited according to Section 29 of the line elevators' brief:

"On August 24, 1942, the association again wrote the commissioner of Income Tax a letter calling his attention to the correspondence exchanged with him on the subject of patronage dividends, commencing with the association's letter of November 17, 1941, pointing out that several elevator companies had been obliged to meet the competition of the Pools by making payments of the nature of a patronage dividend and concluding with the following paragraph:

"As your department has had this matter before it now for some months we would appreciate it greatly if you would advise us as to whether or not you have reached the point of issuing a ruling which we could pass on to our member companies."

And Section 32:

"On October 31, 1942, the association interviewed the minister of finance and laid before him figures showing the extent to which patronage dividend payments were paid out of money which otherwise would have gone to the government in taxes and advised the minister that a number of the line companies had been forced during the current year to pay patronage dividends in order to meet the Pool competition."

The line elevators feel that they have made an exhaustive effort to have the Pools taxed and that nothing has been left undone that might achieve that end.

Section 51 states that:

"After six years of unremitting effort on the part of the association and its members the Pools are still enjoying practical immunity from the taxation bearing so heavily on their competitors and will continue to do so for as long as the failure to enforce the laws is permitted to continue."

WHEAT POOL COMMENT

The line elevators have used all the strength they could muster to persuade the Federal government to tax the Pools, and this support has not been denied.

Farmers delivering to the "several elevator companies" can now understand the unusual practice of line companies paying patronage dividends.

Payment of patronage dividends by line companies is so unheard of that they thought even the Minister of Finance should know about it.

If you think the effort of the co-operatives has been worth while, help them to help you by delivering all your products to the co-operatives and particularly to Alberta Pool elevators.
